The Vintage Funk Tour

For the first time in Australia, a production about a rock immortal whose individuality became a hallmark that both shocked and inspired a generation and to this day touches all ages

On 4th October 1970, Janis Joplin was found dead from a heroin overdose. Lonely, sad and on the inevitable self destructive path of a junkie, Janis was ironically also headed for far greater personal and musical success with her critically acclaimed album 'Pearl'.

Released after her death and embraced by the world then and today as a triumphant album that fuses, rock, jazz and blues with a gritty flavour that marked an era of change.

Pearl – The Janis Joplin Story is an interpretational musical presentation, celebrating a woman who exploded onto the music scene and quickly became the queen of rock 'n' roll and mother of thrift shop vintage funk.

Best remembered for her rebellious lifestyle, her distinctive voice. She joins the infamous 27 Club.

Joplin continually left audiences speechless with unforgettable hits like "Cry Baby" and "Me and Bobby McGee.", "Move Over" and many more.

Paying homage to the legacy of a captivating woman who stunned fans with her extraordinary performances and simultaneously shattered stereotypes, leaving a life-long impression in the rock 'n' roll world.

To her intimate friends she was known as 'Pearl'. To her enthralled public she was Janis Joplin, the greatest female singer in the history of rock and roll.

Pearl - The Janis Joplin Story, delivers in words and music her tumultuous outlook on life, love and being the first lady of rock who got a little dirty!

An extraordinary story interwoven amongst 19 hit songs that shaped an era where love was fearless and rules were broken.

Written and Directed by Chris Keeble – Fish out a Water Productions.
